

Wireless Bluetooth speaker Explorer compact

General information

Compact speaker to enjoy music anywhere, for up to 5 hours. The water-resistant speaker (IPX5 protection) is particularly convenient at the beach, campsites, swimming pools or parties.

The speaker can be connected with the included 3.5-mm stereo audio cable. For a wireless sound experience, it can also be paired with Bluetooth enabled devices and, if a music player is NFC enabled, by simply touching the music player.

Features

- Water-resistant housing (IPX5 protection)
- Bluetooth® 3.0
- NFC chip
- Hands-free function
